

Celiwe Makgamathe

Data Analytics Leader & Strategist

**Clarity for decisions.
Capability for teams.**

I connect business priorities, data and people to shape practical analytics solutions—from executive reporting to stronger data teams.

01 **Analytics leadership**

Aligning priorities, stakeholders and delivery around the decisions that matter.

02 **Power BI & business intelligence**

Translating business requirements into dashboards, KPIs and actionable reporting.

03 **Data storytelling**

Making performance, exceptions and trends clear for leaders and operational teams.

SELECTED LEADERSHIP EXPERIENCE

Lean Placements

CEO & Founder

Access Bank SA

Senior Manager, Reporting, Analytics & Insights

MultiChoice Group

Senior Manager / Principal Business Analyst

Selected work. Practical business value.

Selected banking analytics experience at Access Bank SA

01

Payments visibility

Which payments fail, and what causes the failures?

Power BI dashboards across POS, ATM, RTGS, RTC and EFT, with payment status and drill-through to failure reasons.

BUSINESS VALUE

Reduced manual consolidation; easier investigation of payment exceptions.

02

Operations oversight

Which transactions need attention?

Daily uncleared credit/debit views, customer prioritisation, clearing times, processing status and 0–90+ day ageing.

BUSINESS VALUE

Clear visibility into backlogs and delayed transaction processing.

03

Financial performance

Where is spend diverging from plan?

COO-office reporting across BI, Operations, PMO and IT: actual vs budget, variance %, monthly spend and cost drivers.

BUSINESS VALUE

Consistent cost-performance reporting for management review.

Alliance partners

Monthly growth, fees, volumes and top-partner rankings.

Business & commercial banking

Balances, account activity, exposure and arrears.

Build the insight. Grow the capability.

Consulting, leadership and coaching through Lean Placements
